04 Proposed Vision

05 Potential Impact

06 Preliminary EDA

07 Next Steps

PROBLEM STATEMENT

Managing a successful team can be challenging due to uncertainty in player performance and strategic decision making.

KEY CHALLENGES

- Large Historical Data
- Trend Analysis

PROPOSED SOLUTION

Data Science Approaches

Time Series Forecasting

Enhanced User Experience

Potential Impact

01 Strategic Advantage for FPL Managers

02 Competitive Spirit

03 Platform Growth and Engagement

04 Improve Betting Companies Algorithm

DATASET

- Anand, Vaastav. (2023). FPL Historical Dataset.https://github.com/vaastav/Fantasy-Premier-League/
- 2022/2023 English Premier League Season
- 26505 rows and 41 columns

QUALITY CONCERNS

- Missing gameweek data
- No incremental data for each gameweek
- Rows with no information
- Player Transfers during the season

INDEPENDENT VARIABLES

- name
- position
- team
- xP
- assists
- bonus
- bps
- clean_sheets
- creativity
- element
- expected_assists
- expected_goal_involvements
- expected_goals
- yellow_cards
- expected_goals_conceded
- fixture
- goals_conceded
- goals_scored
- ict_index
- influence
- kickoff_time
- minutes
- opponent_team
- own_goals
- penalties_missed
- penalties_saved
- red_cards
- GW
- round
- saves
- selected
- starts
- team_a_score
- team_h_score
- threat
- transfers_balance
- transfers_in
- transfers_out
- value
- was_home

TARGET VARIABLE

- total_points

PRELIMINARY EDA

TOTAL POINTS VS VALUE

TOP PLAYERS BY POINTS

MODELLING APPROACH

GRADIENT BOOSTING

LINEAR REGRESSION

DECISION TREE

NEURAL NETWORK

ACTUAL VS PREDICTED VALUE

GRADIENT BOOST WITH PCA

NEURAL NETWORK

LINEAR REGRESSION

LINEAR REGRESSION WITH PCA

DECISION TREE WITH PCA

MODEL COMPARISON OF R-SQUARED AND ADJUSTED R-SQUARED

MODEL COMPARISON OF MAE FOR TEST AND TRAIN SET

CHOSEN MODEL : NEURAL NETWORK

RSQUARED	98.2%
ADJ R_SQUARED	98.2%
MAE ON TRAIN	0.2486
MAE ON TEST	0.2352

TOP FEATURES

- Points_per_minute
- Goals_scored
- Minutes

NEXT STEPS

- Hyperparameter Tuning
- Try other models
- Apply Time Series

THANKS
